Machine Details

Specifications

1. At the start of the process, the product moisture must be significantly increased. The soaking tank is ideal for this purpose.
2. Full Stainless steel 304L construction with conical outlet.
3. Vessel diameter 2400 mm.
4. Capacity: 10 m³
5. Food-grade inner stainless-steel finish with no internal welding lines (Hygienic design).

Options to be added on request

1. Stainless steel 304L basin (flumes) underneath the tanks.
2. Platform.
